

## Objective

I want to breath tech! With this new project I want to learn to develop ideas and projects in HTML, CSS and Javascript. Interested in blockchain, **Web3.0 Dapps** and much more!

My interest in programming started when I was searching for a remote job. I think this will be the future!

## Education

### 42 Lisboa

08-2021 – Current

[Programming: Learning C language](#)

[Co-founder of the 42chain \(Blockchain club\)](#)

### Universidade Europeia

09-2017 – 07-2020

Bachelor's degree in Sports Science - Health and exercise

## Professional Experience

### Freelancer - Surf Coach

05-2016 – Current

As a coach, I had to organize classes and events, and lead the people throughout the sessions, giving them challenges that correspond to their skills levels and keep them motivated!

### Solinca - Personal trainer & Swim Coach

07-2020 – 07-2021

Working with people specially one on one, helped me develop my communication and leadership skills, how to challenge, motivate and create bonds with every kind of person.
